OPENING' NEWS

Nr 3 - June 2017

TRAINERS TRAINING COURSE IN ROME, ITALY

Since our last international meeting which took place in Czestochowa in Poland, we had to pleasure to prepare our trainers training course in Rome, Italy. In total, more than 25 trainers participated in testing our products and the PbWorks platform, so that an improved version could be ready for further testing. During our time in Rome, beside the open discussions with the participants, we were able to verify that all materials prepared by the participating countries were correct and ready to be shared with future students and teachers. In order to facilitate sharing of materials, a multimedia guide was prepared

THE MULTIMEDIA GUIDE

Our multimedia guide was conceived as an aid for future teachers and students but as well as a support for all participants in the project. The guide, which was translated into Latvian, Polish, Spanish, Italian and Greek assures that the quality of teaching and the products used is consistent throughout the participant countries as well as for all future teachers

You can find more information about the platform at <http://escalade.pbworks.com/>

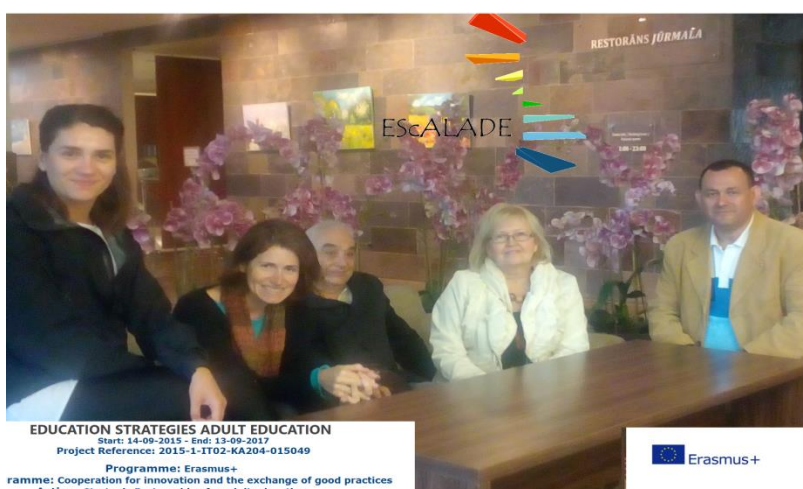

EXPERIMENTAL COURSES IN ITALY, POLAND, LATVIA, GREECE AND SPAIN

Armed with the multimedia guide and a clear structure and plan, all partners were able to prepare the experimental courses where further feedback on the project and work was collected. The experience and participatory learning method being unique, we can say that the general expectation of the teachers was to face some challenges. The results, however, surpassed expectations. The students feedback was very positive, with many of them expressing their willingness to participate in other courses offered by the partner organizations and thanking the teachers for giving them the opportunity to be able to learn at their own pace.

THE FINAL STEPS

As the project is approaching its final date, the partners are now responsible for polishing the diamond to perfection. The meeting in Jurmala, Latvia focuses on the tools we need to achieve this purpose. From making sure that the website is accessible in all languages, to making the final adjustments for the Pbworks platform, the multimedia guide and other outputs, the focus of all partners will be on delivering the highest quality! We are excited and happy to start sharing our experience and our products in the next following weeks through various events and conferences we are preparing! Stay tuned, we will soon write to you about them!
